SOIL BIOLOGY & BIOCHEMISTRY

ISSS-AISS-IBG Cooperating Journal of the International Society of Soil Science

EXECUTIVE EDITOR

PROFESSOR J. S. WAID, P.O. Box 775, Mooloolaba, Queensland 4557, Australia: *Fax* (61 74) 769 183

BOARD OF REGIONAL EDITORS

PROFESSOR J. M. ANDERSON, Department of Biological Sciences, University of Exeter, Hatherly Laboratories, Prince of Wales Road, Exeter, Devon EX4 4PS, England: *Fax* (44 392) 263 700

DR F. J. BERGERSEN, C.S.I.R.O., Division of Plant Industry, G.P.O. Box 1600, Canberra City, A.C.T. 2601, Australia: *Fax* (61 6) 246 5000

PROFESSOR R. G. BURNS, Biological Laboratory, University of Kent, Canterbury, Kent CT2 7NJ, England: *Fax* (44 227) 763 912

PROFESSOR M. A. COLE, Department of Agronomy—Turner Hall, University of Illinois, 1102 S Goodwin Avenue, Urbana, IL 61801, U.S.A.: *Fax* (1 217) 333 9817

PROFESSOR D. C. COLEMAN, Ecology/Biosciences Office, 711 Biological Sciences Building, University of Georgia, Athens, GA 30602, U.S.A.: *Fax* (1 706) 542 3344

PROFESSOR T. HATTORI, Institute of Genetic Ecology, Tohoku University, Katahira, Aoba, Sendai 980, Japan: *Fax* (81 222) 263 9845

PROFESSOR D. A. KLEIN, Department of Microbiology, College of Veterinary Medicine and Biomedical Sciences, Fort Collins, CO 80523, U.S.A.: *Fax* (1 303) 491 1815

PROFESSOR H. KOMADA, Faculty of Agriculture, Shimane University, Matsue, Shimane 690, Japan: *Fax* (81 852) 27 7005

DR A. KRETZSCHMAR, INRA, Station de Zoologie, Laboratoire de Physique et Biologie des Sols, BP 91, 84143 Montfavet Cedex, France: *Fax* (33 90) 31 62 98

DR J. A. LEWIS, Biocontrol of Plant Diseases Laboratory, Room 275, Building 011A, Beltsville Agricultural Research Center-West, Beltsville, MD 20705, U.S.A.: *Fax* (1 301) 504 5968

DR R. G. LINDERMAN, USDA-ARS, Horticultural Crops Research Laboratory, 3420 NW Orchard Avenue, Corvallis, OR 97330, U.S.A.: *Fax* (1 503) 750 8764

PROFESSOR J. M. OADES, Department of Soil Science, Waite Agricultural Research Institute, University of Adelaide, Glen Osmond, South Australia 5064: *Fax* (61 8) 338 1757

PROFESSOR D. PARKINSON, Department of Biological Sciences, University of Calgary, Calgary, Alberta, Canada T2N 1N4: *Fax* (1 403) 289 9311

PROFESSOR G. STOTZKY, Department of Biology, New York University, Washington Square, New York, NY 10003, U.S.A.: *Fax* (1 212) 995 4015

DR K. R. TATE, Division of Land and Soil Sciences, DSIR, Private Bag, Lower Hutt, New Zealand: *Fax* (64 4) 673 114

Publishing Office. Pergamon Press Ltd, Pergamon House, Bampfylde Street, Exeter EX1 2AH, England [*Tel.* Exeter (0392) 51558; *Fax* (0392) 425370].

Production Editor. Alison Seedhouse

Subscription and Advertising Offices. North America: Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A. *Rest of the World:* Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, England [*Tel.* Oxford (0865) 794141].

Annual Institutional Subscription Rates 1994. North, Central and South America, US$910.00, Rest of the World £590.00. Associated Personal Subscription Rates are available on request for those whose institutions are library subscribers. Sterling prices exclude VAT. Non-VAT registered customers in the European Community will be charged the appropriate VAT in addition to the price listed. Prices include postage and insurance and are subject to change without notice. Members of the International Society of Soil Science may order a personal subscription at the concessional rate of £66.00.

Back Issues. Back issues of all previously published volumes, in both hard copy and in microform, are available direct from Pergamon Press offices.

Second class postage paid at RAHWAY, NJ. Postmaster send address corrections to *Soil Biology & Biochemistry*, c/o Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

CONTENTS

Volume 25 Number 1

Accelerated Paper

G. L. Hutchinson, W. D. Guenzi and G. P. Livingston 1 Soil water controls on aerobic soil emission of gaseous nitrogen oxides

General Papers

D. Vaughan, D. Jones and B. G. Ord 11 Amelioration by *Volutella ciliata* of the phytotoxicity of vanillic acid towards the growth of *Pisum sativum* L.

M. H. Opperman, M. Wood, P. J. Harris and C. P. Cherrett 19 Nematode and nitrate dynamics in soils treated with cattle slurry

M. Díaz-Raviña, M. J. Acea and T. Carballas 25 Microbial biomass and its contribution to nutrient concentrations in forest soils

Andrew R. Autry and John W. Fitzgerald 33 Relationship between microbial activity, biomass and organosulfur formation in forest soil

G. Asplund, J. V. Christiansen and A. Grimvall 41 A chloroperoxidase-like catalyst in soil: detection and characterization of some properties

J. Hassink, L. A. Bouwman, K. B. Zwart and L. Brussaard 47 Relationships between habitable pore space, soil biota and mineralization rates in grassland soils

K. Killham, M. Amato and J. N. Ladd 57 Effect of substrate location in soil and soil pore-water regime on carbon turnover

V. Škrdleta, Marie Němcová, Ludmila Lisá and K. Novák 63 Characterization of soil populations of *Rhizobium leguminosarum* bv. *viceae* by means of symbiotic traits

Dan Turk and Harold H. Keyser 69 Accuracy of most-probable-number estimates of rhizobia for tree legumes

Dan Turk, Harold H. Keyser and Paul W. Singleton 75 Response of tree legumes to rhizobial inoculation in relation to the population density of indigenous rhizobia

F. Huysman and W. Verstraete 83 Water-facilitated transport of bacteria in unsaturated soil columns: influence of cell surface hydrophobicity and soil properties

F. Huysman and W. Verstraete 91 Water-facilitated transport of bacteria in unsaturated soil columns: influence of inoculation and irrigation methods

A. Vilariño, J. Arines and H. Schüepp 99 Extraction of vesicular-arbuscular mycorrhizal mycelium from sand samples

Nelida Giambiagi, Mirta Rimolo and Tomas Pirolo 101 Influence of drought on the production of mineral nitrogen in a typical Argiudol of the pampas

M. Van Gestel, R. Merckx and K. Vlassak 109 Microbial biomass responses to soil drying and rewetting: the fate of fast- and slow-growing microorganisms in soils from different climates

M. Van Gestel, R. Merckx and K. Vlassak 125 Soil drying and rewetting and the turnover of ^{14}C-labelled plant residues: first order decay rates of biomass and non-biomass ^{14}C

Weixin Cheng and Ross A. Virginia 135 Measurement of microbial biomass in arctic tundra soils using fumigation–extraction and substrate-induced respiration procedures

Zhao Xiaoyan, Li Shuding, Zhou Likai, Meng Hongguang, Li Ronghua and An Guiru 143 Fate of [^{14}C]hydroquinone and [^{15}N]urea in a soil–rice system: a pot trial

Short Communication
Zhao Xiaoyan, Zhou Likai, Li Ronghua, An Guiru and Zhang Bo 147 Effect of hydroquinone on maize yield and urea efficiency

Forthcoming Papers 149

Volume 25 Number 2

Margarita Sicardi de Mallorca and Maria Luisa Izaguirre-Mayoral 151 Ureide content and growth of cowpea [*Vigna unguiculata* (L.) Walp. var Tuy] plants as affected *Bradyrhizobium* strains and inoculum position

Hamid Amir and Claude Alabouvette 157 Involvement of soil abiotic factors in the mechanisms of soil suppressiveness to fusarium wilts

D. J. Roser, R. D. Seppelt and N. Ashbolt 165 Microbiology of ornithogenic soils from the Windmill Islands, Budd Coast, continental Antarctica: microbial biomass distribution

D. J. Roser, R. D. Seppelt and N. Ashbolt 177 Microbiology of ornithogenic soils from the Windmill Islands, Budd Coast, continental Antarctica. Some observations on methods for measuring soil biomass in ornithogenic soils

Jean B. Ristaino 185 Infection of sweetpotato fibrous roots by *Streptomyces ipomoeae*: influence of soil water potential

K. Toyota and M. Kimura 193 Colonization of chlamydospores of *Fusarium oxysporum* f. sp. *raphani* by soil bacteria and their effects on germination

R. D. Post and A. N. Beeby 199 Microbial biomass in suburban roadside soils: estimates based on extracted microbial C and ATP

M. J. Mazzarino, L. Szott and M. Jimenez 205 Dynamics of soil total C and N, microbial biomass, and water-soluble C in tropical agroecosystems

Leslie A. Harrison, Leo Letendre, Peter Kovacevich, Elizabeth Pierson and David Weller 215 Purification of an antibiotic effective against *Gaeumannomyces graminis* var. *tritici* produced by a biocontrol agent, *Pseudomonas aureofaciens*

T. R. Anderson 223 Soil populations of the root rot fungal pathogen *Chalara elegans* and the mycophagous amoeba *Vampyrella lateritia* following soil fumigation

J. P. Obbard, D. R. Sauerbeck and K. C. Jones 227 *Rhizobium leguminosarum* bv. *trifolii* in soils amended with heavy metal contaminated sewage sludges

J. R. M. Arah, I. J. Crichton and K. A. Smith 233 Denitrification measured directly using a single-inlet mass spectrometer and by acetylene inhibition

C. E. Heijnen, C. H. Hok-A-Hin and J. D. Van Elsas 239 Root colonization by *Pseudomonas fluorescens* introduced into soil amended with bentonite

Oedjijono, M. A. Line and C. Dragar 247 Isolation of bacteria antagonistic to a range of plant pathogenic fungi

G. P. Sparling and P. L. Searle 251 Dimethyl sulphoxide reduction as a sensitive indicator of microbial activity in soil: the relationship with microbial biomass and mineralization of nitrogen and sulphur

R. Shenbagarathai and S. Shanmugasundaram 257 Characterization of *Rhizobium* SBS-R100, a stem nodulating bacterium isolated from a weed legume *Sesbania procumbens*

David J. Marshall, Jan D. Bateman and John Brockwell 261 Validation of a serial-dilution, plant-infection test for enumerating *Rhizobium leguminosarum* bv. *viciae* and its application for counting rhizobia in acid soils

Serge Gagné, Leila Dehbi, Dominique Le Quéré, France Cayer, Jean-Luc Morin, Richard Lemay and Nicole Fournier 269 Increase of greenhouse tomato fruit yields by plant growth-promoting rhizobacteria (PGPR) inoculated into the peat-based growing media

Kenneth E. Giller, Ruth Nussbaum, Amar M. Chaudri and Steve P. McGrath 273 *Rhizobium meliloti* is less sensitive to heavy-metal contamination in soil than *R. leguminosarum* bv. *trifolii* or *R. loti*

Philip Morgan, Susan A. Lee, Stephen T. Lewis, Alexis N. Sheppard and Robert J. Watkinson 279 Growth and biodegradation by white-rot fungi inoculated into soil

Y. G. Yanni and A. A. M. Abd El-Rahman 289 Assessing phosphorus fertilization of rice in the Nile Delta involving nitrogen and cyanobacteria

Short Communication
Arja. H. Vuorinen 295 Requirement of *p*-nitrophenol standard for each soil

Errata 297

Forthcoming Papers 299

Volume 25 Number 3

Accelerated Papers
Amar M. Chaudri, Steve P. McGrath, Kenneth E. Giller, Egbert Rietz and Dieter R. Sauerbeck 301 Enumeration of indigenous *Rhizobium leguminosarum* biovar *trifolii* in soils previously treated with metal-contaminated sewage sludge

M. H. Ryder and A. D. Rovira 311 Biological control of take-all of glasshouse-grown wheat using strains of *Pseudomonas corrugata* isolated from wheat field soil

General Papers
Peter Dunfield, Roger Knowles, Rachel Dumont and Tim R. Moore 321 Methane production and consumption in temperate and subarctic peat soils: response to temperature and pH

A. Ghani, R. G. McLaren and R. S. Swift 327 The incorporation and transformations of ^{35}S in soil: effects of soil conditioning and glucose or sulphate additions

A. R. Harris, D. A. Schisler and S. M. Neate 337 Culture of *Rhizoctonia solani* and binucleate *Rhizoctonia* spp on organic substrates for inoculation of seedlings in containers

Pertti J. Martikainen and Wietse De Boer 343 Nitrous oxide production and nitrification in acidic soil from a Dutch coniferous forest

Takuya Kawanishi, Yoshishige Hayashi, Nobuharu Kihou, Tadakatsu Yoneyama and Yasuo Ozaki 349 Dispersion effect on the apparent nitrogen isotope fractionation factor associated with denitrification in soil; evaluation by a mathematical model

Dana L. Richter and Johann N. Bruhn 355 Mycorrhizal fungus colonization of *Pinus resinosa* Ait, transplanted on northern hardwood clearcuts

Nicolaus von Wirén, Volker Römheld, Jean Louis Morel, Armand Guckert and Horst Marschner 371 Influence of microorganisms on iron acquisition in maize

Shibnath Ghosal, Jawahar Lal, Ravi Kant and Yatendra Kumar 377 Similarities in the core structures of Shilajit and soil humus

R. S. Utkhede and E. M. Smith 383 Long-term effects of chemical and biological treatments on crown and root rot of apple trees caused by *Phytophthora cactorum*

Siddhartha K. Sahu, K. K. Patnaik, Sasmita Bhuyan and N. Sethunathan 387 Degradation of soil-applied isomers of hexachlorocyclohexane by a *Pseudomonas* sp.

Short Communications
Traute-Heidi Anderson and K. H. Domsch 393 The metabolic quotient for CO_2 (qCO_2) as a specific activity parameter to assess the effects of environmental conditions, such as pH, on the microbial biomass of forest soils

Raphi Mandelbaum, Yitzhak Hadar and Yona Chen 397 Simple apparatus to study microbial activity in organic substrates under constant water potential

Forthcoming Papers 401

Volume 25 Number 4

Review
S. E. Flis, A. R. Glenn and M. J. Dilworth 403 The interaction between aluminium and root nodule bacteria

General Papers
Dorothy M. Halsall 419 Inoculation of wheat straw to enhance lignocellulose breakdown and associated nitrogenase activity

Stephen C. Hart, Mary K. Firestone, Eldor A. Paul and Jeffrey L. Smith 431 Flow and fate of soil nitrogen in an annual grassland and a young mixed-conifer forest

Guy Soulas 443 Evidence for the existence of different physiological groups in the microbial community responsible for 2,4-D mineralization in soil

A. Roldan and J. Albaladejo 451 Vesicular-arbuscular mycorrhiza (VAM) fungal populations in a Xeric Torriorthent receiving urban refuse

M. E. Fenn, M. A. Poth, P. H. Dunn and S. C. Barro 457 Microbial N and biomass, respiration and N mineralization in soils beneath two chaparral species along a fire-induced age gradient

D. J. Ross and K. R. Tate 467 Microbial C and N in litter and soil of a southern beech (*Nothofagus*) forest: comparison of measurement procedures

D. J. Ross and K. R. Tate 477 Microbial C and N, and respiratory activity, in litter and soil of a southern beech (*Nothofagus*) forest: distribution and properties

Larry J. Halverson, Murray K. Clayton and Jo Handelsman 485 Population biology of *Bacillus cereus* UW85 in the rhizosphere of field-grown soybeans

L. Zelles and Q. Y. Bai 495 Fractionation of fatty acids derived from soil lipids by solid phase extraction and their quantitative analysis by GC-MS

R. K. Hans, M. A. Khan, M. Farooq and M. U. Beg 509 Glutathione-S-transferase activity in an earthworm (*Pheretima posthuma*) exposed to three insecticides

H. Vandenhove, R. Merckx, M. van Steenbergen and K. Vlassak 513 Microcalorimetric characterization, physiological stages and survival ability of *Azospirillum brasilense*

Short Communication
G. Puri and D. Barraclough 521 Comparison of 2450 MHz microwave radiation and chloroform fumigation–extraction to estimate soil microbial biomass nitrogen using ^{15}N-labelling

Forthcoming Papers 523

Volume 25 Number 5

Review
Laura S. England, Hung Lee and Jack T. Trevors 525 Bacterial survival in soil: effect of clays and protozoa

General Papers
J. Hassink 533 Relationship between the amount and the activity of the microbial biomass in Dutch grassland soils: comparison of the fumigation–incubation method and the substrate-induced respiration method

L. G. Gemell and R. J. Roughley 539 Counting rifampicin-resistant rhizobia when a minor component of the soil rhizobial flora

H. Bolton Jr, J. L. Smith and S. O. Link 545 Soil microbial biomass and activity of a disturbed and undisturbed shrub-steppe ecosystem

Erick Zagal 553 Measurement of microbial biomass in rewetted air-dried soil by fumigation–incubation and fumigation–extraction techniques

C. García, T. Hernández, F. Costa, B. Ceccanti and **G. Masciandaro** 561 Kinetics of phosphatase activity in organic wastes

J. G. Howieson, A. D. Robson and **M. A. Ewing** 567 External phosphate and calcium concentrations, and pH, but not the products of rhizobial nodulation genes, affect the attachment of *Rhizobium meliloti* to roots of annual medics

J. Scott Angle, Steve P. McGrath, Amar M. Chaudri, Rufus L. Chaney and **Kenneth E. Giller** 575 Inoculation effects on legumes grown in soil previously treated with sewage sludge

W. G. Reeve, R. P. Tiwari, M. J. Dilworth and **A. R. Glenn** 581 Calcium affects the growth and survival of *Rhizobium meliloti*

L. Beyer, H.-R. Schulten, R. Fruend and **U. Irmler** 587 Formation and properties of organic matter in a forest soil, as revealed by its biological activity, wet chemical analysis, CPMAS ^{13}C-NMR spectroscopy and pyrolysis–field ionization mass spectrometry

H. V. A. Bushby 597 Colonization of rhizospheres by *Bradyrhizobium* sp. in relation to strain persistence and nodulation of some pasture legumes

W. L. Lowther and **Heather N. Patrick** 607 Spread of *Rhizobium* and *Bradyrhizobium* in soil

Anne Mathews, Wolfgang D. Bauer, John Brockwell, Bernard J. Carroll, Robert R. Gault and **Peter M. Gresshoff** 613 Rhizosphere colonization by *Bradyrhizobium japonicum* is related to extent of nodulation of *Glycine max* cv. Bragg and its super-nodulating mutants

S. Hansen, J. E. Mæhlum and **L. R. Bakken** 621 N_2O and CH_4 fluxes in soil influenced by fertilization and tractor traffic

Short Communications

H. H. Janzen and **Y. Bruinsma** 631 Rhizosphere N deposition by wheat under varied water stress

H. A. Yang, K. Sivasithamparam and **P. A. O'Brien** 633 Improved method for protoplast regeneration of *Rhizoctonia solani*

T. H. Wang, Y. T. Tchan, A. M. M. Zeman and **I. R. Kennedy** 637 Presence of sodium dependent *Azotobacter* in Australia (New South Wales)

A. Richaume, C. Steinberg, L. Jocteur-Monrozier and **G. Faurie** 641 Differences between direct and indirect enumeration of soil bacteria: the influence of soil structure and cell location

Forthcoming Papers 645

Volume 25 Number 6

Costas Theodorou 647 Effect of mineral nutrition on the germination of basidiospores of *Rhizopogon luteolus* in the rhizosphere of *Pinus radiata*

B. Frey and **H. Schüepp** 651 A role of vesicular–arbuscular (VA) mycorrhizal fungi in facilitating interplant nitrogen transfer

E. Witter, A. M. Mårtensson and **F. V. Garcia** 659 Size of the soil microbial biomass in a long-term field experiment as affected by different N-fertilizers and organic manures

L. Gianfreda, M. A. Rao and **A. Violante** 671 Interactions of invertase with tannic acid, hydroxy-aluminium (OH-Al) species or montmorillonite

T. Harden, R. G. Joergensen, B. Meyer and **V. Wolters** 679 Soil microbial biomass estimated by fumigation–extraction and substrate-induced respiration in two pesticide-treated soils

T. Appel and **K. Mengel** 685 Nitrogen fractions in sandy soils in relation to plant nitrogen uptake and organic matter incorporation

Shlomo Sarig, Emily B. Roberson and Mary K. Firestone 693 Microbial activity–soil structure: response to saline water irrigation

M. Q. Yu and W. H. Ko 699 Simple method for simultaneous qualitative and quantitative studies of fungal behavior in soil

D. M. Sylvia, D. O. Wilson, J. H. Graham, J. J. Maddox, P. Millner, J. B. Morton, H. D. Skipper, S. F. Wright and A. G. Jarstfer 705 Evaluation of vesicular–arbuscular mycorrhizal fungi in diverse plants and soils

A. B. Wolff, P. W. Singleton, M. Sidirelli and B. B. Bohlool 715 Influence of acid soil on nodulation and interstrain competitiveness in relation to tannin concentrations in seeds and roots of *Phaseolus vulgaris*

Å. Frostegård, E. Bååth and A. Tunlid 723 Shifts in the structure of soil microbial communities in limed forests as revealed by phospholipid fatty acid analysis

G. Tian, L. Brussaard and B. T. Kang 731 Biological effects of plant residues with contrasting chemical compositions under humid tropical conditions: effects on soil fauna

C. Ciardi, B. Ceccanti, P. Nannipieri, S. Casella and A. Toffanin 739 Effect of various treatments on contents of adenine nucleotides and RNA of Mediterranean soils

J. G. Davis-Carter and D. C. Sheppard 747 Redistribution of metals and nutrients by fire ants in a flue dust contaminated pasture

Jeffrey W. Brendecke, Richard D. Axelson and Ian L. Pepper 751 Soil microbial activity as an indicator of soil fertility: long-term effects of municipal sewage sludge on an arid soil

M. Y. Whalen, S. M. Armstrong and T. R. Patel 759 Characterization of a *Rhodococcus* species that utilizes numerous aromatics

Elana Avidov, Warren A. Dick and Kenneth D. Racke 763 Proposed substrate for evaluating alkyl phosphomonoesterase activity in soil

M. Nishiyama, K. Senoo and S. Matsumoto 769 Establishment of γ-1,2,3,4,5,6-hexachlorocyclohexane-assimilating bacterium, *Sphingomonas paucimobilis* strain SS86, in soil

John Lussenhop 775 Effects of two collembola species on nodule occupancy by two *Bradyrhizobium japonicum* strains

E. W. Triplett, K. A. Albrecht and E. S. Oplinger 781 Crop rotation effects on populations of *Bradyrhizobium japonicum* and *Rhizobium meliloti*

T. Nishio, H. Sekiya and K. Kogano 785 Estimate of nitrogen cycling in ^{15}N-amended soil during long-term submergence

D. Lopez-Hernandez, P. Lavelle, J. C. Fardeau and M. Niño 789 Phosphorus transformations in two P-sorption contrasting tropical soils during transit through *Pontoscolex corethrurus* (Glossoscolecidae: Oligochaeta)

José A. Amador and Ronald D. Jones 793 Nutrient limitations on microbial respiration in peat soils with different total phosphorus content

A. Kretzschmar and J. N. Ladd 803 Decomposition of ^{14}C-labelled plant material in soil: the influence of substrate location, soil compaction and earthworm numbers

Forthcoming Papers 811

Volume 25 Number 7

Z. Q. An, B. Z. Guo and J. W. Hendrix 813 Populations of spores and propagules of mycorrhizal fungi in relation to the life cycles of tall fescue and tobacco

Eli Zaady, Avi Perevolotsky and Yaacov Okon 819 Promotion of plant growth by inoculum with aggregated and single cell suspensions of *Azospirillum brasilense* Cd

M. Magdalena Martínez-Cañamero, A. L. Extremera, J. Muñoz and J. M. Arias — 825 — DNase activity during the life cycle of *Myxococcus coralloides* and *M. xanthus*

Andrew H. Bosworth, Brenda T. Breil and Eric W. Triplett — 829 — Production of the anti-rhizobial peptide, trifolitoxin, in sterile soils by *Rhizobium leguminosarum* bv. *trifolii* T24

A. Autry and J. W. Fitzgerald — 833 — Saturation potentials for sulfate adsorption by field-moist forest soils

L. Y. Guo and W. H. Ko — 839 — Distribution of mating types and the nature of survival of *Pythium splendens* in soil

R. J. Buresh, M. I. Samson and S. K. De Datta — 843 — Quantification of denitrification in flooded soils as affected by rice establishment method

Z. L. Liu and James B. Sinclair — 849 — Colonization of soybean roots by *Bacillus megaterium* B153-2-2

D. A. Wardle, G. W. Yeates, R. N. Watson and K. S. Nicholson — 857 — Response of soil microbial biomass and plant litter decomposition to weed management strategies in maize and asparagus cropping systems

G. W. Yeates, D. A. Wardle and R. N. Watson — 869 — Relationships between nematodes, soil microbial biomass and weed-management strategies in maize and asparagus cropping systems

Tord Magnusson — 877 — Carbon dioxide and methane formation in forest mineral and peat soils during aerobic and anaerobic incubations

E. H. Nijhuis, M. J. Maat, I. W. E. Zeegers, C. Waalwijk and J. A. Van Veen — 885 — Selection of bacteria suitable for introduction into the rhizosphere of grass

Peter J. A. Shaw and J. P. N. Johnston — 897 — Effects of SO_2 and O_3 on the chemistry and FDA activity of coniferous leaf litter in an open air fumigation experiment

A. R. Harris, D. A. Schisler and M. H. Ryder — 909 — Binucleate *Rhizoctonia* isolates control damping-off caused by *Pythium ultimum* var. *sporangiiferum*, and promote growth, in *Capsicum* and *Celosia* seedlings in pasteurized potting medium

Per Ambus and Søren Christensen — 915 — Denitrification variability and control in a riparian fen irrigated with agricultural drainage water

L. A. Schipper, A. B. Cooper, C. G. Harfoot and W. J. Dyck — 925 — Regulators of denitrification in an organic riparian soil

S. M. Allison and J. I. Prosser — 935 — Ammonia oxidation at low pH by attached populations of nitrifying bacteria

Paul H. Michel and Jaap Bloem — 943 — Conversion factors for estimation of cell production rates of soil bacteria from [^{3}H]thymidine and [^{3}H]leucine incorporation

S. Issa, M. Wood and L. P. Simmonds — 951 — Active movement of chickpea and bean rhizobia in dry soil

S. Issa, L. P. Simmonds and M. Wood — 959 — Passive movement of chickpea and bean rhizobia through soils

Short Communication

A. K. M. A. Hossain, P. K. Khanna and J. B. Field — 967 — Acid–peroxide digestion procedure for determining total nitrogen in chloroform-fumigated and non-fumigated soil extracts

Book Review — 971

Forthcoming Papers — 973

Volume 25 Number 8

C. A. Lévesque, J. D. Holley and R. S. Utkhede — 975 — Individual and combined effects of *Enterobacter aerogenes* and metalaxyl on apple tree growth and *Phytophthora* crown and root rot symptom development

D. C. M. Glandorf, L. G. L. Peters, I. van der Sluis, P. A. H. M. Bakker and **B. Schippers**	981	Crop specificity of rhizosphere pseudomonads and the involvement of root agglutinins
K. L. Weier, I. C. MacRae and **R. J. K. Myers**	991	Denitrification in a clay soil under pasture and annual crop: estimation of potential losses using intact soil cores
K. L. Weier, I. C. MacRae and **R. J. K. Myers**	999	Denitrification in a clay soil under pasture and annual crop: losses from ^{15}N-labelled nitrate in the subsoil in the field using C_2H_2 inhibition
B. Mary, C. Fresneau, J. L. Morel and **A. Mariotti**	1005	C and N cycling during decomposition of root mucilage, roots and glucose in soil
Lisa M. Aguilera, Robert P. Griffiths and **Bruce A. Caldwell**	1015	Nitrogen in ectomycorrhizal mat and non-mat soils of different-age Douglas-fir forests
Alan C. Gange	1021	Translocation of mycorrhizal fungi by earthworms during early succession
John G. Streeter and **Seppo O. Salminen**	1027	Distribution of the two types of polysaccharide formed by *Bradyrhizobium japonicum* bacteroids in nodules on field-grown soybean plants (*Glycine max* (L.) Merr.)
R. B. Lal, D. E. Kissel, M. L. Cabrera and **A. P. Schwab**	1033	Kinetics of urea hydrolysis in wheat residue
R. Azcón	1037	Growth and nutrition of nodulated mycorrhizal and non-mycorrhizal *Hedysarum coronarium* as a result of treatment with fractions from a plant growth-promoting rhizobacteria
Lisa A. Lobry de Bruyn	1043	Ant composition and activity in naturally-vegetated and farmland environments on contrasting soils at Kellerberrin, Western Australia
B. Subramaniam and **C. R. Babu**	1057	Intrinsic antibiotic resistance among rhizobia isolated from subtropical Himalayan legumes
Zahera Abbass and **Yaacov Okon**	1061	Physiological properties of *Azotobacter paspali* in culture and the rhizosphere
Zahera Abbass and **Yaacov Okon**	1075	Plant growth promotion by *Azotobacter paspali* in the rhizosphere
Henrik Christensen	1085	Conversion factors for the thymidine incorporation technique estimated with bacteria in pure culture and on seedling roots
Dan Levanon	1097	Roles of fungi and bacteria in the mineralization of the pesticides atrazine, alachlor, malathion and carbofuran in soil
C. B. Christianson, W. E. Baethgen, G. Carmona and **R. G. Howard**	1107	Microsite reactions of urea-nBTPT fertilizer on the soil surface
B. A. Byzov, Vu Nguyen Thanh and **I. P. Babjeva**	1119	Interrelationships between yeasts and soil diplopods
Short Communications		
Bonnie Vogelzang, Helen Parsons and **Sally Smith**	1127	Separate effects of high temperature on root growth of *Vigna radiata* L. and colonization by the vesicular–arbuscular mycorrhizal fungus *Glomus versiforme*
R. Paul Schreiner and **Roger T. Koide**	1131	Streptomycin reduces plant response to mycorrhizal infection
S. K. A. Danso, F. Pálmason and **G. Hardarson**	1135	Is nitrogen transferred between field crops? Examining the question through a sweet-blue lupin (*Lupinus angustifolius* L.)–oats (*Avena sativa*) intercrop
Forthcoming Papers	1139	

Volume 25 Number 9

Accelerated Paper

Esther van der Knaap, Russell J. Rodriguez and Diana W. Freckman 1141 Differentiation of bacterial-feeding nematodes in soil ecological studies by means of arbitrarily-primed PCR

General Papers

J. Evans, C. Wallace and N. Dobrowolski 1153 Interaction of soil type and temperature on the survival of *Rhizobium leguminosarum* bv. *viciae*

R. R. Gault and E. A. Schwinghamer 1161 Direct isolation of *Bradyrhizobium japonicum* from soil

J. Oudot, J. Dupont, S. Haloui and M. F. Roquebert 1167 Biodegradation potential of hydrocarbon-assimilating tropical fungi

Joke Van Wensem, Herman A. Verhoef and Nico M. Van Straalen 1175 Litter degradation stage as a prime factor for isopod interaction with mineralization processes

M. Megharaj, A. S. Rao and K. Venkateswarlu 1185 Influence of rice straw amendment on persistence and algal toxicity of *p*-nitrophenol in soil

Weixin Cheng, David C. Coleman, C. Ronald Carroll and Carol A. Hoffman 1189 *In situ* measurement of root respiration and soluble C concentrations in the rhizosphere

E. Bremer, H. Gehlen, G. D. W. Swerhone and C. van Kessel 1197 Assessment of reference crops for the quantification of N_2 fixation using natural and enriched levels of ^{15}N abundance

Jeffry J. Fuhrmann and Bruce L. Vasilas 1203 Field response of the *Glycine–Bradyrhizobium* symbiosis to modified early-nodule occupancy

M. Fridlender, J. Inbar and I. Chet 1211 Biological control of soilborne plant pathogens by a β-1,3 glucanase-producing *Pseudomonas cepacia*

A. Saa, Mª. C. Trasar-Cepeda, F. Gil-Sotres and T. Carballas 1223 Changes in soil phosphorus and acid phosphatase activity immediately following forest fires

K. Chander and P. C. Brookes 1231 Residual effects of zinc, copper and nickel in sewage sludge on microbial biomass in a sandy loam

K. G. Mattson and H. C. Smith 1241 Detrital organic matter and soil CO_2 efflux in forests regenerating from cutting in West Virginia

P. J. A. Howard and D. M. Howard 1249 Ammonification of complexes prepared from gelatin and aqueous extracts of leaves and freshly-fallen litter of trees on different soil types

J. M. Boissier and D. Fontvieille 1257 Biodegradable dissolved organic carbon in seepage waters from two forest soils

J. G. Xu and N. G. Juma 1263 Above- and below-ground transformation of photosynthetically fixed carbon by two barley (*Hordeum vulgare* L.) cultivars in a Typic Cryoboroll

T. Harden, R. G. Joergensen, B. Meyer and V. Wolters 1273 Mineralization of straw and formation of soil microbial biomass in a soil treated with simazine and dinoterb

A. N. Dubeikovsky, E. A. Mordukhova, V. V. Kochetkov, F. Y. Polikarpova and A. M. Boronin 1277 Growth promotion of blackcurrant softwood cuttings by recombinant strain *Pseudomonas fluorescens* BSP53a synthesizing an increased amount of indole-3-acetic acid

P. M. Stephens, J. J. Crowley and C. O'Connell 1283 Selection of pseudomonad strains inhibiting *Pythium ultimum* on sugarbeet seeds in soil

Short Communications

Louise M. Clarke, Michael J. Dilworth and Andrew R. Glenn 1289 Survival of *Rhizobium meliloti* WSM419 in laboratory culture: effect of combined pH shock and carbon substrate stress

B. S. Griffiths, F. Ekelund, R. Rønn and S. Christensen 1293 Protozoa and nematodes on decomposing barley roots

T. H. DeLuca and D. R. Keeney 1297 Ethanol-stabilized chloroform as a fumigant for estimating microbial biomass by reaction with ninhydrin

E. B. Roberson, C. Chenu and M. K. Firestone 1299 Microstructural changes in bacterial exopolysaccharides during desiccation

Corrigendum 1303

Forthcoming Papers 1305

Volume 25 Number 10

Accelerated Paper

Birgit W. Hütsch, Colin P. Webster and David S. Powlson 1307 Long-term effects of nitrogen fertilization on methane oxidation in soil of the Broadbalk Wheat Experiment

General Papers

R. F. Grant, N. G. Juma and W. B. McGill 1317 Simulation of carbon and nitrogen transformations in soil: mineralization

R. F. Grant, N. G. Juma and W. B. McGill 1331 Simulation of carbon and nitrogen transformations in soil: microbial biomass and metabolic products

R. Shenbagarathai 1339 Isolation and characterization of mutants of *Rhizobium* SBS-R100 symbiotic with *Sesbania procumbens*

I. Valeur and I. Nilsson 1343 Effects of lime and two incubation techniques on sulfur mineralization in a forest soil

R. J. Thomas and N. M. Asakawa 1351 Decomposition of leaf litter from tropical forage grasses and legumes

J. P. Haggar, E. V. J. Tanner, J. W. Beer and D. C. L. Kass 1363 Nitrogen dynamics of tropical agroforestry and annual cropping systems

Susan F. Sugai and Joshua P. Schimel 1379 Decomposition and biomass incorporation of ^{14}C-labeled glucose and phenolics in taiga forest floor: effect of substrate quality, successional state, and season

M. C. Leirós, F. Gil-Sotres, B. Ceccanti, M. C. Trasar-Cepeda and M. V. González-Sangregorio 1391 Humification processes in reclaimed open-cast lignite mine soils

P. I. Pennington and R. C. Ellis 1399 Autotrophic and heterotrophic nitrification in acidic forest and native grassland soils

C. J. Pilbeam, B. S. Mahapatra and M. Wood 1409 Soil matric potential effects on gross rates of nitrogen mineralization in an Orthic Ferralsol from Kenya

Bishal K. Sitaula and L. R. Bakken 1415 Nitrous oxide release from spruce forest soil: relationships with nitrification, methane uptake, temperature, moisture and fertilization

Amalia Virzo De Santo, Björn Berg, Flora Angela Rutigliano, Anna Alfani and Antonietta Fioretto 1423 Factors regulating early-stage decomposition of needle litters in five different coniferous forests

J. Wu, P. C. Brookes and D. S. Jenkinson 1435 Formation and destruction of microbial biomass during the decomposition of glucose and ryegrass in soil

J. Scott Angle, Rufus L. Chaney and David Rhee 1443 Bacterial resistance to heavy metals related to extractable and total metal concentrations in soil and media

L. G. Gemell and R. J. Roughley 1447 Field evaluation in acid soils of strains of *Rhizobium leguminosarum* bv. *trifolii* selected for their tolerance or sensitivity to acid soil factors in agar medium

R. J. Roughley, L. G. Gemell, J. A. Thompson and J. Brockwell 1453 The number of *Bradyrhizobium* sp. (*Lupinus*) applied to seed and its effect on rhizosphere colonization, nodulation and yield of lupin

P. M. Bradley and F. H. Chapelle 1459 Arsenate inhibition of denitrification in nitrate contaminated sediments

Short Communications

L. G. Gemell, R. J. Roughley, M. L. Reed and Elizabeth J. Hartley 1463 Screening of *Rhizobium leguminosarum* bv. *trifolii* for adaptation to acid and neutral soils using a selective agar medium

J. E. Landmeyer, P. M. Bradley and F. H. Chapelle 1465 Influence of Pb on microbial activity in Pb-contaminated soils

Forthcoming Papers 1467

Volume 25 Number 11

Accelerated Papers

Asha Yabannavar and Richard Bartha 1469 Biodegradability of some food packaging materials in soil

P. M. Stephens, C. W. Davoren, B. M. Doube, M. H. Ryder, A. M. Benger and S. M. Neate 1477 Reduced severity of *Rhizoctonia solani* disease on wheat seedlings associated with the presence of the earthworm *Aporrectodea trapezoides* (Lumbricidae)

P. R. Hirsch, M. J. Jones, S. P. McGrath and K. E. Giller 1485 Heavy metals from past applications of sewage sludge decrease the genetic diversity of *Rhizobium leguminosarum* biovar *trifolii* populations

General Papers

H. Siepel and E. M. de Ruiter-Dijkman 1491 Feeding guilds of oribatid mites based on their carbohydrase activities

M. J. Rowell and L. Z. Florence 1499 Characteristics associated with differences between undisturbed and industrially-disturbed soils

S. Dursun, P. Ineson, Juliet C. Frankland and Lynne Boddy 1513 Sulphite and pH effects on CO_2 evolution from decomposing angiospermous and coniferous tree leaf litters

U. Skiba, K. A. Smith and D. Fowler 1527 Nitrification and denitrification as sources of nitric oxide and nitrous oxide in a sandy loam soil

D. M. Howard and P. J. A. Howard 1537 Relationships between CO_2 evolution, moisture content and temperature for a range of soil types

M. G. Dosskey and D. C. Adriano 1547 Trace element toxicity in VA mycorrhizal cucumber grown on weathered coal fly ash

Bendt Jensen 1553 Rhizodeposition by $^{14}CO_2$-pulse-labelled spring barley grown in small field plots on sandy loam

Ingrid K. Thomsen 1561 Turnover of ^{15}N-straw and NH_4NO_3 in a sandy loam soil: effects of straw disposal and N fertilization

J. Wu, A. G. O'Donnell and J. K. Syers 1567 Microbial growth and sulphur immobilization following the incorporation of plant residues into soil

Peter G. Hartel, Thomas M. Vaughn and Joseph W. Williamson 1575 Rhizosphere competitiveness of genetically altered *Pseudomonas solanacearum* in a novel gnotobiotic plant assembly

J. F. Darbyshire, K. B. Zwart and D. A. Elston 1583 Growth and nitrogenous excretion of a common soil flagellate, *Cercomonas* sp.

D. J. Ross and G. P. Sparling 1591 Comparison of methods to estimate microbial C and N in litter and soil under *Pinus radiata* on a coastal sand

K. R. Tate, D. J. Ross, B. J. O'Brien and F. M. Kelliher 1601 Carbon storage and turnover, and respiratory activity, in the litter and soil of an old-growth southern beech (*Nothofagus*) forest
